

Civil Engineering Technologist

Franklin Engineering Ltd. is looking to add a Civil Technologist to our team. The applicant would assist with various aspects of our day-to-day works. Most specifically, AutoCAD Civil 3D design works. Additional experience in surveying and installation review (Inspection) services would be an asset.

As a regional leader in onsite wastewater systems and land development/subdivision planning and design, we aspire to add value to all we touch. Our team members enjoy working alongside industry leaders on exciting and challenging projects that make a visible difference in many communities. This is an opportunity to join a growing firm, collaborating with a talented team in a progressive, positive office environment.

Specific Responsibilities

- Prepare engineering drawings for land development and municipal projects.
- Site inspection.
- Project management and contract administration.
- Topographical surveying.
- Oversee the construction of works and services including the preparation of engineering servicing agreements, construction documentation, field inspections, cost estimates.
- Prepare formal reports, memos, and documents. Provide reporting of work progress and issue construction memos to contractors as needed.
- Coordinate with utility agency requirements for permits within public rights-of-way, utility easements, etc.

Qualifications

- Diploma in Civil Engineering Technology or equivalent experience.
- Construction work experience.
- Ability to prepare, read, and interpret plans, specifications, contract documents and experience interpreting and providing recommendations on professional reports, review of designs, COSA and CRSD bylaws and technical specifications.
- Experience with the review and acceptance of development applications, third party utilities, and engineering utility reviews.
- Excellent customer service and interpersonal skills.

- Strong time management skills and a demonstrated ability to manage multiple priorities and deadlines.
- Experience in AutoCAD Civil 3D, and civil software models (water/storm/sanitary).
- Proficiency with computer and typical office software programs (MS Office).
- Class 5 BC Driver's License and the use of a reliable personal vehicle.

Job Details

- Full-time.
- Hourly wage - \$28.00 - \$50.00 – linked to work experience.

What We Offer

- Extra paid days off.
- Profit Sharing.
- Work vehicle options.
- Paid Continued Education and Professional Fees.
- Health Benefits.
- RRSP matching.

Franklin Engineering is committed to fostering a culture of diversity, equity, and inclusion and will consider all qualified candidates. Requests for accommodations can be made at any stage of the application and selection process.
